

Accelerate the Growth of Your Practice

Grow your online presence, educate your community, and get a consistent flow of Direct Access patients.

GROWTH X

The leading end-to-end practice growth platform with guaranteed results that attracts people in your community and converts them into patients.

Attract - Build an online presence and educate your community about the benefits of Physical Therapy. Our automated ads attract a consistent flow of direct access patients to your practice.

Convert - Our done-for-you, proprietary growth platform helps you nurture and convert leads into loyal, paying patients by making patient conversations easy.

Grow - Ditch the spreadsheets. Track all your Facebook and Google Ads metrics in one user-friendly, centralized system that clearly shows your ROI for any given month.

In the Last 12 Months, Growth X Has Generated

151,230,213

Facebook Impressions

330,000

Patient Website Visits

72,000

Patient-Opportunities

“Growth X helps us with our marketing and a steady flow of new patients and past patient reactivations. But, the system has also helped us to maintain our focus on the business. We have been able to step back some from the day-to-day operations and focus more on growth and long-term sustainability.”

— Ashtyn Haynes, Co-Owner, Hanyes PT

Create the Future of Healthcare

The current healthcare system is backwards. When people experience pain in their body, invasive treatments and addictive medications are often recommended well before conservative methods. Doing things this way isn't cheaper. It isn't effective. And it isn't right. Research proves that conservative care - specifically Physical Therapy - provides the best, most affordable treatment to manage much of the musculoskeletal injury market.

\$3.8 Trillion

is spent on healthcare every year in the US

330,000

of that is spent on medications, injections, imaging, & surgeries

2.6%

is spent on physical therapy in all its forms

At Breakthrough, we partner with growth-minded Private Practice owners who want to make physical therapy the first choice for people in pain. Our Growth X platform offers all the tools you need to educate your community, attract new patients, and expand your practice.

Together, we can help more people in pain get back to normal naturally. And build a future where healthcare is more personal, more affordable, and more effective.

**Get More New Patients.
More Revenue, and Higher
Practice Value.**
